

**CFO Officials:**

As you may have noticed, the NCAA Football Instant Replay Case Book inadvertently did not include the new Rule 12 updates from the February cycle. We have updated the online version of the case book and it is available for download here:

<http://www.ncaapublications.com/DownloadPublication.aspx?download=FBC18.pdf>

All case plays and descriptions in the printed case book include the new language/references, but the rule portion in the front is incorrect. The NCAA Football Rules Book is correct in print. We apologize for the oversight in the instant replay case book.

Thank you and good luck as you prepare for the season.
