New for this year, each Referee should bring with them a play from their 2019 season that has a major learning point. Be prepared to discuss the play, and the significant learning points and how we could have potentially worked the play or handled the aftermath in a much better way. It is important that we leave our ego behind and have the courage to select that play that may not leave us or the crew in a favorable light. These plays are how we learn – and learn to manage **“Major Moments in the Game”**.

This is a critical clinic for our continued improvement so come prepared with your play and be ready to work!
