Targeting Clarification

A question came up regarding play #20 on the CFO/NCAA National Replay Training Video. This play was also #3 on the Targeting Video (Virginia-Navy).

After a discussion among the conference coordinators and Instant Replay Committee at the National Replay Clinic it was decided that the hit on the quarterback is targeting.

The National Training Video was recorded prior to the discussion in Chicago.

Please let me know if you have any further questions.

Dean Blandino

CFO National Director of Instant Replay
